PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of experience building responsive, scalable web applications using React.js, Next.js, and TypeScript. Comfortable working across the full MERN stack—including Node.js, Express.js, and MongoDB—with hands-on experience in REST API integration, JWT authentication, WebSockets, and state management using Redux Toolkit. Focused on writing clean, reusable code and delivering fast, secure, cross-browser-compatible user interfaces.

TECHNICAL SKILLS

Frontend : React.js, Next.js 14, TypeScript, JavaScript (ES6+), HTML5, CSS3

State & Data : Redux Toolkit, Context API, React Query, RTK Query

Styling : Tailwind CSS, Bootstrap, Sass, Responsive Web Design, Mobile-First UI

Backend : Node.js, Express.js, REST APIs, JWT Authentication, WebSockets

Database : MongoDB, Mongoose, MySQL, Prisma ORM

Practices : Component Reusability, API Integration, Cross-Browser Compatibility, Agile Development, Debugging

Tools : Git, GitHub, Postman, Vercel, Netlify, VS Code, Render.com

WORK EXPERIENCE

Frontend Developer —Alpharive Tech Pvt. Ltd.

2025 – 2026

Built and maintained frontend interfaces for blockchain-based web applications using React.js, TypeScript, and Next.js

- Created reusable React.js + TypeScript components used across multiple product modules, improving development efficiency and UI consistency.
- Integrated REST APIs with Axios and added real-time updates using WebSockets, enhancing the real-time user experience.
- Developed AI-powered UI features with smart recommendations and automated insights, increasing user engagement.
- Improved frontend performance and security using lazy loading, code splitting, JWT handling, and XSS prevention.

PROJECTS

Upzud —Multi-Role E-Commerce Platform

Next.js · TypeScript · Redux Toolkit · Tailwind CSS · Node.js · MongoDB · JWT · WebSockets

- Developed a full-stack e-commerce platform with 4 user roles (Customer, Vendor, Admin, Rider), real-time order tracking via WebSockets, and JWT-based access control.
- Developed cart, checkout, and product listing with Next.js; used Redux Toolkit for state management, cutting unnecessary re-renders and improving UI performance.
- Designed a mobile-first responsive UI using Tailwind CSS; added code splitting and lazy loading to keep page load times fast across all devices.

FinTrackz —AI-Powered Personal Finance Tracker

Next.js · Node.js · Express.js · MongoDB · Prisma ORM · REST APIs · JWT Auth

- Developed a full-stack finance tracker with Next.js and Node.js/Express.js; built dashboard UI and connected backend REST APIs for expense tracking, reporting, and data visualisation.
- Added an AI-driven spending analysis feature that gives users personalised budget tips; secured all routes with Secure authentication and session handling.

CrownKey — Scalable Real Estate Listing Platform

Next.js · Node.js · Express.js · PostgreSQL · Prisma · Tailwind CSS · JWT · Swagger

- Developed a scalable real-estate listing platform inspired by NoBroker and 99acres using Next.js and Express.js; designed REST APIs and managed relational data with PostgreSQL and Prisma.
- Implemented JWT authentication, protected APIs, property CRUD operations, image uploads, advanced search/filtering, pagination, and SEO-friendly property pages with optimized routing and metadata.
- Built responsive UI using Tailwind CSS, integrated Swagger API documentation, optimized database queries with indexing and pagination, and designed the system to efficiently support 50,000+ records.

EDUCATION

Bachelor of Computer Applications

2021 –2024

Ayya Nadar Janaki Ammal College | CGPA: 6.8

R.M.P.S Ramiah Nadar Higher Secondary School

HSC: 86.8% | SSLC: 86.4%
